

This chart displays a review of standard colours according the Classic RAL System. RAL is used for information defining standard colours for paint and coatings. It is the most popular Central European Colour Standard used today. The colours are used in architecture, construction, and industry and road safety.

The RAL colours in this chart have been matched as closely as possible. This chart can not serve as a standard for RAL colour products. The colour depends on your monitor and printer. Use official RAL colour product for most accurate colour. Colour Harzen is a reseller of RAL products and delivers the classic RAL products for (almost) all over the world

 RAL 2000 Yellow Orange	 RAL 3032 Pearl Ruby Red	 RAL 5023 Distant Blue	 RAL 6035 Pearl Green	 RAL 7045 Telegrey 1	 RAL 9017 Traffic Black
